Rett Syndrome Family Survey

Principal Investigator: Drs. Anita Datta

Co-Investigators: Drs. Gabriella Horvath and Zeinab Gholibeigian

Caregivers of patients with Rett Syndrome (RTT) are invited to participate in an anonymous virtual survey to help us learn about caregiver perspectives on priorities for care.

Goal: To identify areas where RTT caregivers and clinicians agree and disagree in care priorities in order to make care better for families.

Who can participate?

- Caregivers of RTT patients in Canada
- Age 19 or older
- Able to complete survey in English

What does the study involve?

Study participation involves completing one **10-15 min** survey.

How do I participate?
